Leadership Insights to Enhance Your Relationships with Staff and Clients

Not everyone wants to be a leader, but if you are in business then you must understand and use the concepts of leadership in order to be successful! Great leadership is enhanced by an understanding of the psychological principles of leader development. The purpose of this program is to increase your emotional intelligence by introducing you to 4 leadership approaches to make your business more successful and nonverbal communication skills to make your communication more effective. What sets great leaders apart from “so called” leaders is their leadership skill set. Only those who take the time to cultivate their skill set will be effective leaders.

Dr. Linda Talley

Dr. Talley is an expert in human behavior particularly as it relates to today's high-speed and less relationship focused communication style and she delivers learning that lasts! She is a globally recognized author and keynote speaker on human behavior as it relates to effective communication, negotiations, sales & leadership. Her high energy style blends content, humor and practicality—you will leave with ideas you can use immediately! The author of 4 vastly popular books on behavior. Dr. Talley holds in Ph.D. in psychology and is an ongoing researcher in the area of leadership development & nonverbal communication.

Three Main Core Competencies

Communication, Emotional Intelligence, Interpersonal Skills
